Mobile Cranes
By James Headley, Crane Institute of America

This crane safety handbook is the most up-to-date publication available on mobile cranes. Topics include: conditions that reduce lifting capacities, understanding load charts, pre-op inspection, crane setup, working around power lines, operating procedures, hoisting personnel, and more. A training program in itself. Excellent preparation for operators taking licensing and certification exams.

Sku: MNL-11 | Price: $29.95
Qty Discounts:
2-10 $26.95
11-49 $23.95
Please Call for Qty Over 50 or for Special Trainer Pricing.

Crane Stability On Site Book
By CIRIA

This book aims to reduce incidents of crane instability when planning the use of mobile and tower cranes on site.

Sku: MNL-09 | Price: $69.95

Digger Derricks Safety Manual
By AEM: Association of Equipment Manufacturers

This safety manual is intended to point out some of the basic safety situations that may be encountered during the normal operation and maintenance of your machine.

Sku: MNL-04 | Price: $7.95

Mobile Crane Manual
By Construction Safety Association of Ontario

With 560 illustrations and 156 load chart problems, this is an excellent presentation of components, terminology, quadrants of operation, pre-lift considerations, setup and operating procedures. 419 pages. Hardbound.

Sku: MNL-03 | Price: $72.95

Cranes and Derricks
By Lawrence K. Shapiro and Jay P. Shapiro

Fully revised throughout, Cranes and Derricks offers comprehensive coverage of the selection, installation, and safe use of cranes and derricks on construction sites. Over 600 pages. Hardcover.

Sku: MNL-22 | Price: $99.95

Crane Safety Manual
By AEM: Association of Equipment Manufacturers

Crane Safety Manual provides extensive information regarding safe crane operation and maintenance with an entire section devoted to hand signals.

Sku: MNL-14 | Price: $9.95

Mobile Cranes & Rigging
By James Headley, Crane Institute of America

These two books are a must-have for anyone who works with cranes and rigging. Both are excellent preparation for operators taking licensing and certification exams. Save $14.00 from individual price.

Sku: A-MNL-13 | Price: $35.90

Mobile Crane DVDs can be found on Page 12.
Rigging Manual  
*By Construction Safety Association of Ontario*  
This true benchmark in the rigging industry contains over 600 photos/illustrations and 70+ data tables. Topics include: wire & fiber rope, chain, rigging hardware, rigging procedures and precautions. 188 pages. Hardbound.  
Sku: MNL-02 | Price: $48.95

Rigging Equipment  
*By Joseph A. MacDonald*  
This book is a must-have for rigging contractors, facility managers, and equipment operators. Featuring regulations, standards, guidelines, and recommendations applicable to critical lifts.  
Sku: MNL-23 | Price: $59.95

Handbook of Rigging  
*By MacDonald, Rossnagel and Higgins*  
Updated and expanded to incorporate new advances and technologies, this book is a comprehensive source of information and guidelines on rigging. Hardbound.  
Sku: MNL-20 | Price: $95.95

Hoisting and Rigging Safety Manual  
*By Construction Safety Association of Ontario*  
This manual identifies the basic hazards in rigging and hoisting, explains the safeguards necessary to control or eliminate these hazards, and spells out other safety requirements. 8.5" x 11" Softbound.  
Sku: MNL-13 | Price: $34.95

Rigging  
*By James Headley, Crane Institute of America*  
Words that describe this pocket-size handbook: practical, organized and great illustrations. Contains the latest information on wire rope, rigging hardware, and slings, including capacity tables and charts. Also covers load weight estimation, sling loading calculations, and proper handling of loads.  
This is a must-have handbook for anyone who works with cranes and rigging. Also an excellent text for training.  
Sku: MNL-12 | Price: $19.95  
Qty Discounts:  
2-10 $17.95  
11-49 $15.95  
Please Call for Qty Over 50 or for Special Trainer Pricing.

Wire Rope User’s Manual  
*By Wire Rope Technical Board*  
This manual is the most comprehensive and in-depth discussion on wire rope published. Topics include: basic components, handling and installation, operation, inspection and maintenance of wire rope. In addition, capacity charts for all commonly used types of wire rope are included. 8.5" x 11" Softbound.  
Sku: MNL-06 | Price: $42.95

Wire Rope Sling User’s Manual  
*By Wire Rope Technical Board*  
This companion volume to the Wire Rope Users Manual includes: glossary of wire rope sling terms, useful guidelines for riggers, turning loads with slings, capacity charts for all types of wire rope slings, rigger’s checklist, crane hand signals, and how to care for wire rope slings. 8.5" x 11" Softbound.  
Sku: MNL-05 | Price: $42.95

Continued on page 4
Forklifts (continued)

Forklifts
By James Headley, Crane Institute of America

Absolutely the best handbook published on the safe use of forklifts. This pocket-size handbook provides operators, managers and safety professionals with the tools to identify and control lift truck hazards. Details training requirements, physical principles, lifting, moving, and placing loads in various operating environments. In addition, this handbook provides sample safety checklists for pre-operational inspection and lift planning. A must for operator training.

Sku: MNL-21 | Price: $17.95
Qty Discounts:
2-10 $14.95
11-49 $12.95
50-99 $10.95

Wire Rope Inspection Guidelines
By Wire Rope Technical Board

12 pages, 8.5” x 11” Softbound.
Sku: RCC-18 | Price: $3.95

Mike’s Rigging Mysteries
By Mike Parnell, ITI Bookstore

Journeyman riggers, master riggers and rigging gear inspection reference cards. This series of books contains over 100 informative and educational rigging workshops. 11 booklets, 24 pages per book, 4.25” x 5.5” Softbound.

Sku: MNL-55 | Price: $49.95

IPT Crane & Rigging Handbook
By Ronald G. Garby

Revised in 2005. Reorganized, updated and expanded. Five new sections and over 100 pages added. The IPT’s Crane and Rigging Handbook is used for reference and/or training in every type of industry and all methods of classroom training in North America.

Sku: MNL-43 | Price: $24.95

IPT Crane & Rigging Training Manual
By Ronald G. Garby

Reorganized, updated and expanded. Spiral bound. Includes question review and answer book.

Sku: MNL-52 | Price: $38.00

Safety Manuals by AEM
$7.95 each

These safety manuals are intended to point out some of the basic safety situations that may be encountered during the normal operation and maintenance of your machine and to suggest possible ways of dealing with these conditions.

Aerial Platform Safety Manual

Safe Craning Field Guides
By James Headley, Crane Institute of America

Crane Setup Sku: BKT-08 | Price: $6.95
Crane Setup Statistics reveal that proper crane setup reduces accidents by 50%. This field guide helps you do just that by illustrating and discussing all the important aspects, such as site preparation, setup on soft surfaces, how to level the crane, and more.

Working Cranes Near Power Lines Sku: BKT-09 | Price: $6.95
Power line contacts account for the majority of crane-related fatalities. To avoid this highly lethal type of accident, certain procedures must be followed. This field guide takes you step by step through the pre-lift meeting, maintaining the required clearances, utilizing a signal person, driving under power lines, and what an operator should do in the event of contact.

Hoisting Personnel Sku: BKT-10 | Price: $6.95
Using OSHA as a guide, this is a thorough overview of a vitally important yet often misunderstood aspect of crane operations. Topics include platform specification, trial and test lifts, pre-lift inspections and the procedures required to safely lift personnel.

Basic Operating Practices Sku: BKT-11 | Price: $6.95
This guide provides a thorough introduction to many of the essential practices and procedures employees need to be familiar with before beginning work around lifting equipment.

Conditions that Reduce Capacity Sku: BKT-12 | Price: $6.95
Avoiding conditions that cause a crane’s capacity to be lowered or compromised is the major focus of this field guide. Some of the factors discussed are crane condition, being out of level, operating in high winds, dynamic loading, and duty cycle operations.

Pre-Operational Inspection Sku: BKT-13 | Price: $6.95
Pre Operational Inspection Guides the person charged with this task through the key phases of the inspection, from the physical inspection to the final pre-operational test of all functions. Emphasis is placed on the inspection of wire rope and when it should be replaced. Ideal for both lattice and telescoping boom cranes.

How to Use Load Charts Sku: BKT-14 | Price: $9.95
Using load charts correctly is considered the single most important aspect of safe crane operation. Step by step, this guide explains how to determine the lifting capacity of a crane. Areas of operation, load radius, gross and net capacity, parts of the line and other common technical terms are also defined and illustrated.

Fall Protection Sku: BKT-15 | Price: $14.95
Following OSHA guidelines, this field guide discusses types, requirements and applications of standard fall protection systems. This field guide is an excellent model for training personnel in the reduction of fall-related accidents. Sure to catch the reader’s attention are the sections on dynamics of a fall, and fatality statistics. Call for Special Trainer Pricing.

Scaffolding Safety Sku: BKT-16 | Price: $15.95
This handbook presents OSHA’s scaffolding regulations in a clear, understandable format. Illustrations provide the competent person and others the knowledge to erect frame scaffolding in compliance with federal regulations. Describes major types of metal frame scaffolding and their use; details potential hazards associated with scaffolding erection and provides remedies. Safety checklists and scaffolding exercises are also included. Great text for Training!
Operating Techniques for the Tractor-Loader Backhoe
By Gary Ober

Since 1983 this book has been the standard training source for schools, utilities, and public works. Operating Techniques for the Tractor-Loader-Backhoe explains how to get maximum productivity from this versatile machine.

Sku: MNL-08 | Price: $39.95

IPT Rotating Equipment Handbook
By Bruce M. Basaraba & James A. Archer

IPT’s Rotating Equipment Handbook emphasizes the use of proven diagnostic, and corrective methods and procedures for determining machinery condition and predicting mechanical problems for Millwrights, Industrial Mechanics, Heavy Duty Mechanics, Machinists, and Rotating Equipment Technicians.

Sku: MNL-48 | Price: $22.95

The History of Road Building Equipment
By KHL International

To chart the history of road building equipment is to virtually chart the history of civilization itself. Many great names come to the fore as the chronicle is told.

Sku: MNL-27 | Price: $79.95

Safety Manuals by AEM
$7.95 each

These safety manuals are intended to point out some of the basic safety situations that may be encountered during the normal operation and maintenance of your machine and to suggest possible ways of dealing with these conditions.

Heavy Equipment DVDs

Heavy Equipment DVDs can be found on Page 14.
Books

**Construction Foremans Safety Handbook**
*By George Kennedy*

Written to help managers, supervisors and foremen understand the basic components of a safety program. This book discusses what they can do to prepare for a very important part of their job - accident prevention. Softbound.

Sku: MNL-07 | Price: $58.95

---

**Pocket Ref**
*By Thomas J. Glover*

Information for do-it-yourselfers, engineers, craftsmen, etc. The ultimate reference and problem solver! The uses for this book are endless.

Sku: MNL-25 | Price: $12.95

---

**Handyman In-Your-Pocket**
*By Richard A. Young and Thomas J. Glover*

The building and maintenance reference book you have been looking for....This amazing shirt pocket reference designed specifically for handymen, maintenance people, engineers, etc. It contains 768 pages of facts, tables, and vital information.

Sku: MNL-26 | Price: $12.95

---

**Mike’s Safety Tips**
*By Mike Parnell, ITI Bookstore*

These easy to read booklets work great as a set or as individuals. Each booklet contains 25 tips per subject: Rigging Practices, Mobile Crane Operations and Overhead Crane Use. Discuss the subjects during safety meetings. 3 booklet set, Softbound.

---

**Construction Health & Safety Manual**
*By Construction Safety Association of Ontario*

This is the book to read for protection against construction health and safety hazards. Topics include personal protective equipment, scaffolds, hazardous substances, and much more.

Sku: MNL-31 | Price: $24.95

---

**Skid Steer Safety Manual**
*By AEM*

This safety manual is intended to point out some of the basic safety situations that may be encountered during the normal operation and maintenance of your machine and to suggest possible ways of dealing with these conditions.

Sku: MNL-35 | Price: $7.95

---

**Construction Math Made Easy**
*By John A. Haynes*

The contents of this book have been proof read by a graduate engineer with multiple degrees who was totally amazed at its simplicity and accuracy. The book allows a person with limited training to perform advanced math problems with ease.

Sku: MNL-44 | Price: $29.95

Training and Certification/Qualification

Through our training programs, thousands of operators, inspectors, riggers and trainers have been trained and certified, all having a positive impact toward reducing accidents. Additionally, supervisors, managers and equipment owners have been provided with the training necessary to establish and improve safety programs on their job sites. Our training and certification programs are offered in two formats, Scheduled and On-Site:

Scheduled Programs
- Qualified Rigger/Signalperson (2 days)  
  Prep for CIC Certification Exam
- Rigging Equipment Inspector (2 days)
- Mobile Crane Operator (3 days)  
  Prep for CIC Certification Exam
- Mobile Crane Inspector (4 days)
- Tower Crane Operator & Inspector (4 days)
- Aerial lift Operator & Inspector (3 days)
- Train the Trainer (3 days/4 days/7 days)
- Advanced Rigger (1 day)  
  Prep for CIC Certification Exam
- Managing Crane Safety (2 days)
- Mobile Crane Operator, Hands-On (4 days)  
  Prep for CIC Certification Exam
- Small Crane Operator, Hands-On (5 days)
- Overhead Crane Operator & Inspector (4 days)
- Forklift Operator & Inspector (3 days)

On-Site Programs
These training programs are specifically developed for the customer’s cranes and equipment and are conducted on-site at the customer’s facility. Technical information is presented in a classroom setting followed by fieldwork where students are taught the basic and advanced techniques of actual crane operation, rigging, and inspection. Training can be conducted on all types of cranes and equipment for all levels of personnel. Contact us at 1-800-832-2726 for a cost proposal.

The Complete Package
Crane Institute of America is now offering an amazing package, unmatched by our competitors. In 2 weeks time, you can become certified to conduct our Mobile Crane Operator Training Program, become a CIC Authorized Practical Examiner and lease our online training program. You can also purchase materials (books, workbooks, etc.) at discounted prices! Additionally, if you have operating experience, you can become a CIC Certified Crane Operator. All during this 2 week period.

✓ Train-the-Trainer Mobile Cranes (TTMC)
✓ CIC Authorized Practical Examiner (PET)
✓ License our Online Mobile Crane Operator Training Program
✓ CIC Mobile Crane Operator Certification
Accredited Certifications

Crane Institute of America Certification (CIC) offers NCCA nationally accredited certifications which are also recognized by OSHA.

**Advantages of CIC Operator Certification:**
- Less expensive
- Calculators allowed during exams
- Exam questions are relevant to the job
- Online or paper exams
- Fewer written exams to take
- Only one practical exam is required for up to (5) certifications

**Mobile Crane Operator**
- Telescoping Boom, Under 21 Tons
- Telescoping Boom, 21-75 Tons
- Telescoping Boom, 76-300 Tons
- Telescoping Boom, Over 300 Tons
- Lattice Boom, Under 300 Tons
- Lattice Boom, 300 Tons & Over

**Rigger Certifications:**
- Qualified Signalperson & Qualified Rigger
- Qualified Signalperson & Qualified Rigger - Advanced
  - Construction Industry
  - General Industry

**Crane Inspector/Certifier Certifications:**
- Mobile Crane
- Tower Crane
- Overhead Crane

Hand Signal & Reference Cards

Mobile Crane Hand Signal Card
By Crane Institute of America
Illustrates the correct hand signals required by OSHA and ASME when directing operators of mobile cranes. Laminated & weatherproof. (min. order 10). Qty Discounts Available. Also available in Spanish.
Sku: HSC-14 | Price: $1.95

Overhead Crane Hand Signal Card
By Crane Institute of America
Illustrates the correct signals required by OSHA and ASME when directing the operation of overhead cranes. Laminated & weatherproof. (min. order 10). Qty Discounts Available.
Sku: HSC-15 | Price: $1.50

Tower Crane Hand Signal Card
By Crane Institute of America
Illustrates the correct signals required by OSHA and ASME when directing the operation of tower cranes. Laminated & weatherproof. (min. order 10). Qty Discounts Available.
Sku: HSC-16 | Price: $1.50

Hand Signal Hard Hat Sticker
By Crane Institute of America
Curved to fit on the side or bill of your hard hat. All the correct hand signals required by OSHA and ASME when directing operators of mobile cranes. Weatherproof.
Sku: HSC-18 | Price: $3.95

Additional Reference Cards
By Mike Parnell / ITI Bookstore:
Mobile Crane Responsibilities Card
Sku: RCC-19 | Price: $9.95

Length/Height/Run Reference Card - Wallet
Sku: RCC-3035 | Price: $1.25

Rigging Gear Inspection Reference Card - Pocket

Rigger Capacity Card
By Crane Institute of America
Contains capacities for eye bolts, shackles, wire rope, chain and synthetic web slings. Included are weights of common materials used on job sites and a step-by-step example of how to calculate sling loading. Laminated & weatherproof. (min. order 10). Qty Discount Available.
Sku: RCC-13 | Price: $2.95

Rigger Safety Reference Card
By Crane Institute of America
This pocket size fold-up card is a quick reference card to the important aspects of rigging. The key areas covered are wire rope, slings, hardware and rigging practices. Laminated and weatherproof. Qty Discounts Available.
Sku: RCC-16 | Price: $6.95

Crane Safety Reference Card
By Crane Institute of America
This pocket size fold-up card is a valuable reference guide for all operators and other personnel working with mobile cranes. Key areas covered are crane setup, pre-operational inspection, working near power lines and how to interpret load charts. Laminated and weatherproof. Qty Discount Available.
Sku: RCC-14 | Price: $6.95

Hoisting Personnel Safety Reference Card
By Crane Institute of America
This pocket size reference card is ideal for pre-lift meetings, training, and to help improve safety when cranes are used to lift personnel. Covers platform requirements, selection of rigging, trial and test lifts and pre-lift inspection. Laminated and weatherproof. Qty Discounts Available.
Sku: RCC-15 | Price: $4.95
Charts, Posters & Warning Decals

Mobile Crane Hand Signal Chart
By Crane Institute of America

OSHA required, for posting on the outside of the crane or in the work area. Illustrates the correct hand signals required by OSHA and ASME when directing operators of mobile cranes. Self-adhesive and weatherproof. 8.5” x 11”. Also available in Spanish.

Sku: HSC-22 | Price: $14.95

Overhead Crane Hand Signal Poster
By Crane Institute of America

Illustrates the correct overhead crane hand signals required by OSHA and ASME when directing operators of overhead cranes. Full color graphic design. 18” x 24”.

Sku: PST-18 | Price: $14.95

In A Flash: Rigging Inspection Reference Guide
By Mike Parnell / ITI Bookstore

A collection of 110 color photos that depict the most common types of damage as outlined by OSHA, ANSI, & ASME regulations which require the rigging gear’s removal from service.

Sku: MNL-57 | Price: $19.95

<tr>
<td><strong>Advanced Tips for Rigging &amp; Lifting</strong></td>
<td>Vista Training</td>
<td>Filmed under the guidance of professional riggers, these tips are from years of experience. After a quick review, this video offers tips on how to estimate the weight and center of gravity for large or odd shaped loads. Topics: analyzing loads, determining load weight, sling placement, lift points, odd shaped loads, productivity and safety tips. 26 minutes.</td>
<td>DVADRIGS</td>
<td>$205.00</td>
</tr>
<tr>
<td><strong>Rigging &amp; Lifting with Small Hydraulic Cranes</strong></td>
<td>Vista Training</td>
<td>Through the use of graphics and demonstrations, the three basic types of hitches and several variations are clearly shown. The effects of sling angles, rigging hardware, balance points, sling materials and a dozen other elements affecting safe rigging are addressed and easily understood. 26 minutes.</td>
<td>DVCRNRRIG</td>
<td>$205.00</td>
</tr>
<tr>
<td><strong>Rigging &amp; Lifting with Mobile Construction Equipment</strong></td>
<td>Vista Training</td>
<td>An excavator, wheel loader or backhoe is not a crane. You owe it to yourself, and the people working in the area, to watch this video before the work begins. Topics: operator/rigger teamwork, analyzing the load, determining proper rigging, how to figure and adjust center of gravity on odd shape loads, and more. 29 minutes.</td>
<td>DVDRIG</td>
<td>$205.00</td>
</tr>
<tr>
<td><strong>Hand Signals for Construction Equipment</strong></td>
<td>Vista Training</td>
<td>This video shows the SAE hand signals in use with various types of construction equipment. Visual use of the hand signals published as SAE J1307, Verbal explanation of the correct use of established hand signals, How the machine operator responds to clear signals, Situations where hand signals may be the best form of communication. 11 Minutes.</td>
<td>DVLC3</td>
<td>$95.00</td>
</tr>
<tr>
<td><strong>Signal Person Training Program</strong></td>
<td>Equipment Training Solutions</td>
<td>This state-of-the-art interactive training course covers OSHA 1926.1400, and ASME B30.5 hand signal requirements. Animations and videos illustrate the standard signals along with a 75 question review designed to assess the student’s level of knowledge. Includes Instructor CD, Instructor Guide and Student Guide. Additional Instructor ($9.99) and Student Guides ($11.99) Available for Purchase. (Must purchase a Signal Person Program).</td>
<td>DVD-SIGNAL</td>

**Construction Forklift Safety**  
*By Digital 2000*

This program is designed to meet mandatory training requirements for anyone operating forklifts on the job site. Program details forklift engineering principles, safe operating rules and operator maintenance.

Excellent program to improve forklift performance and safety. 15 minutes.

Sku: DVCFS | Price: $205.00

---

**Forklift Stability Essentials**  
*By Vocam*

Every year people are injured and killed in incidents involving forklifts. Forklift stability is a major factor in many accidents. Collisions, roll overs and damaged goods are just some of the results of forklift operators not understanding forklift stability. Includes Training Manual DVD. 18 minutes.

Sku: DVDFSTE | Price: $395.00

---

**Large Capacity Forklift Inspection & Maintenance**  
*By Vista Training*

Large Capacity Forklift Inspection & Maintenance Pre-operation inspections are important for all heavy equipment. An impending equipment failure can quickly create a dangerous situation for the lumber yard operator or nearby people. How to complete a pre-operation inspection, what to inspect, equipment capacities and more. 9 minutes.

Sku: DVD-LCFIM | Price: $205.00

---

**Forklift Operator Training**  
*By Digital 2000*

Designed for employees responsible for operating forklift equipment in a foundry or other industrial settings. Explains forklift engineering principles, safe operating rules, forklift maintenance, and more. 16 minutes.

Sku: DVDFORKS | Price: $205.00

---

**Forklift Safety Essentials**  
*By Vocam*

A forklift is a powerful and safe tool when used by a well trained operator. However, forklift safety is often not well understood by many operators and this can increase the risk of accidents. Some parts of this DVD are graphic. Includes Training Manual DVD. 26 minutes.

Sku: DVDFSE | Price: $395.00

---

**Sliding Boom (Telescoping) Forklift Operating Techniques**  
*By Vista Training*

Operators of this equipment are subject to some difficult conditions. From rough terrain and people on the job site to proper hand signals and avoiding power lines. This video is a great summary of ten rules to live by. Importance of Load Charts, Center of Gravity-avoiding tip overs, Roading the forklift and hills, Steering options and leveling the load.

Sku: DVDFOT | Price: $205.00

---

**Large Capacity Forklift Operation - Lumber Yard**  
*By Vista Training*

Operators of this equipment are subject to some difficult conditions. From rough terrain and people on the job site to proper hand signals and avoiding power lines. This video is a great summary of ten rules to live by. Importance of Load Charts, Center of Gravity-avoiding tip overs, Roading the forklift and hills, Steering options and leveling the load.
